

MOHAMMAD BADRUJAMAN

Frontend Developer | Fullstack Developer

mohbadru.dev@gmail.com • <https://www.linkedin.com/in/moh-badrujaman>

PROFESSIONAL SUMMARY

Frontend-focused Fullstack Developer with 2+ years of professional experience building and maintaining production web applications. Proficient in ReactJS, Next.js, TypeScript, TailwindCSS, Laravel, and ExpressJS. Delivered features across 4 active platforms at Fotohokkie, including booking flows, payment integrations, REST APIs, and reporting dashboards used to monitor IDR 18.6B in 2025 annual transaction value (+7.0% YoY vs 2024). Comfortable working end-to-end from UI implementation and API design to production bug resolution.

WORK EXPERIENCE

Fotohokkie

Aug 2023 – Mar 2026

Fullstack Developer

Remote

- Developed and maintained production UI across 4 active platforms: Fotohokkie, Fotohappie, NeedABeauty, and Studio Cukur, using ReactJS and Next.js.
- Built and integrated booking and payment modules for the Photobooth Without Cashier platform, covering cash, static QRIS, dynamic QRIS, and debit/EDC transaction flows.
- Enhanced transaction reporting dashboards used to track IDR 17.397B in 2024 and IDR 18.620B in 2025 annual transaction value (+IDR 1.222B / +7.0% YoY).
- Added reporting visibility for add-on revenue categories: extra time (IDR 98.4M → IDR 116.0M), extra persons (IDR 62.7M → IDR 144.3M), and additional prints (IDR 7.6M → IDR 29.6M) from 2024 to 2025 — reflecting strong add-on growth driven by improved customer experience.
- Developed REST APIs for attendance reports, asset repair reports, and per-box customer count reports using ExpressJS and Laravel.
- Built the Discovery Montessori (DIMO) website from scratch and contributed to the full PT. Tera Hoki website redesign, handling responsive frontend implementation and backend integration.
- Resolved production bugs across multiple platforms, improving system stability, usability, and operational reliability.

PT. Intan Digital Internet (INTANET)

May – Jul 2024

Fullstack Developer

Freelance

- Built the INTANET company website using GatsbyJS, delivering a performant and SEO-friendly static site.
- Developed accounting UI pages for finance, cash flow, and billing workflows, then integrated them with backend services.
- Managed ongoing website improvements across frontend and backend layers based on stakeholder needs.

DISKANAK Garut (Fisheries Agency)

Oct–Dec 2024 | Aug–Sep 2025

Fullstack Developer

Freelance

- Built the DISKANAK government fisheries website UI using ReactJS and Laravel.
- Developed the Garut Market fisheries entrepreneur sales platform, including product listings, transaction flows, and management features.
- Maintained and improved the platform post-launch, supporting reliability for government end users.
