## PROFESSIONAL SUMMARY

Contributed to a reporting dashboard tracking Rp18.6 billion in annual transaction value (+7.0% YoY) at Fotohokkie — Fullstack Developer with a Frontend focus and 2+ years of experience building and maintaining production web and mobile applications. Core expertise includes ReactJS, Next.js, TypeScript, TailwindCSS, Flutter, React Native, Laravel, and ExpressJS, with experience across 4 active platforms covering booking flows, payment integration, and REST APIs. Comfortable working end-to-end, from UI implementation and API design to resolving production bugs.

## WORK EXPERIENCE

### Fullstack Developer (Part-Time/Freelance) — Fotohokkie

Aug 2023 – Mar 2026

Remote · Worked part-time while completing bachelor's degree

- ▶ Developed and maintained production UI across 4 active platforms: Fotohokkie, Fotohappie, NeedABeauty, and Studio Cukur using ReactJS and Next.js.
- ▶ Built and integrated booking and payment modules for the Photobooth Tanpakasir platform, covering cash, static QRIS, and dynamic QRIS transaction flows.
- ▶ Enhanced the transaction reporting dashboard used to monitor annual transaction value of Rp17.397 billion (2024) and Rp18.620 billion (2025) (+Rp1.222 billion / +7.0% YoY).
- ▶ Added reporting visibility for add-on revenue categories: extra time (Rp98.4M to Rp116.0M), extra person (Rp62.7M to Rp144.3M), and extra prints (Rp7.6M to Rp29.6M) from 2024 to 2025.
- ▶ Built and developed a POS (Point of Sale) application for NeedABeauty using Flutter, enabling cashier transaction management with open bill, hold transaction, and save transaction features for efficient front-desk operations.
- ▶ Developed REST APIs for attendance reports, asset repair reports, and per-box customer count reports using ExpressJS and Laravel.
- ▶ Built the Discovery Montessori (DIMO) website from scratch and contributed to the full redesign of the PT. Tera Hoki website, handling responsive frontend implementation and backend integration.
- ▶ Resolved production bugs across multiple platforms, improving system stability, usability, and operational reliability.

### Fullstack Developer (Freelance) — PT. Intan Digital Internet (INTANET)

May – Jul 2024

- ▶ Built the INTANET company website using GatsbyJS, delivering a performant, SEO-friendly static site.
- ▶ Developed a location-based mobile attendance and leave-request application using React Native Expo, enabling field technicians to check in directly from the job site without visiting the office.
- ▶ Developed accounting UI pages for financial workflows, cash flow, and billing, then integrated them with backend services.
- ▶ Managed ongoing website improvements across the frontend and backend layers based on stakeholder needs.

### Fullstack Developer (Freelance) — DISKANAK Garut (Fisheries Agency)

Oct–Dec 2024 / Aug–Sep 2025

- ▶ Built the government fisheries website UI for DISKANAK using ReactJS and Laravel.
- ▶ Developed a sales platform for fisheries merchants at Pasar Garut, including product listings, transaction flows, and management features.
- ▶ Maintained and improved the platform post-launch, supporting reliability for government end users.

## TECHNICAL SKILLS

**Version Control & Collaboration:** Git, GitHub, Agile Workflow

**Frontend:** ReactJS, Next.js, TypeScript, JavaScript (ES6+), TailwindCSS, HTML5, CSS3, GatsbyJS

**Mobile:** Flutter, React Native (Expo)

**Backend & API:** Laravel (PHP), ExpressJS (Node.js), REST API Design

**Tools:** Figma, npm, Postman

**Practices:** Responsive design, component-based architecture, API integration, production debugging, cross-browser compatibility

## EDUCATION

---

**B.S. in Informatics Engineering — Institut Teknologi Garut**

*Mar 2022 – Sep 2026*

Garut, West Java

## CERTIFICATIONS

---

- ▶ Dicoding — Fundamentals of Web Programming
- ▶ BuildWithAngga — Mastering React JS: Progressive Web Apps (E-Commerce)
- ▶ British Council — English Score Certificate

## LANGUAGES

---

**Indonesian:** Native

**English:** Intermediate — business conversation and technical documentation
